ARTUR KWIATKOWSKI

FRONT-END DEVELOPER

EXPERIENCE

Front-end Developer

SCALO, CRIF | 09.2023 – PRESENT

- Stack: **React**, Redux Toolkit, TypeScript, **Angular**, REST API, SCSS, **Tailwind CSS**, AWS Amplify, React Query, Google Maps
- Actively contributed to a financial platform built with React, collaborating on multiple repositories and ensuring code consistency across projects.
- Focus on **WCAG accessibility** standards.
- Made decisions while collaborating with a team of approximately 10 members.
- Actively participated in devising technical and business solutions, taking responsibility for their implementation.
- Mentored and onboarded new developers, providing technical guidance, explaining project architecture, and supporting implementation decisions.
- Implemented unit and integration testing using **React Testing Library** and **Jest**.
- Actively participated in daily code reviews, providing feedback and promoting best practices.
- Utilized Angular Material for consistent UI design and developed a custom component library using Storybook to support scalable and reusable front-end architecture.

Front-end Developer

KISS DIGITAL | 09.2020 – 07.2023

- Stack: **React**, **Redux Toolkit**, **TypeScript**, **JavaScript**, **React Testing Library**, **Next.js**, **REST API**, **Gatsby**, **GraphQL**, **React Query**, **jQuery**, **SCSS**, **CSS Modules**, **Tailwind CSS**, **Google Maps**
- Working in Scrum teams using JIRA and Confluence
- Time estimation
- Writing and maintaining technical documentation
- Maintaining long-term projects
- Developing single person projects and being main front-end developer
- Proposing own solutions to problems
- Contact with customers
- Leading new team members

Front-end Developer

DEV AND DELIVER | 05.2019 – 08.2020

- Stack: **Vue**, **Vuex**, **TypeScript**, **GraphQL**, **React**, **Redux**, **JavaScript**, **REST API**, **SCSS**, **Styled Components**
- Working in Team using Jira
- Time estimation
